

Comp24 is the premier manufacturer of packaging prototypes today.

- 3 D Rendering and Animation of “Virtual Comps”, digital photography studio
- File adjustment, adaptation, retouching – we can work from production artwork or even basic sketches, ability to arc and distort files for any shaped package
- Production print simulations for “Shelf Ready” packaging on virtually any material – utilizing a variety of in-house print technologies
- Color standards for print production
- “Color Correction” of packaging for TV commercials and Print photography
- Sales sample runs
- Model Making in foam, lucite, and resins; mold, cast vac-forming, structural package development
- Spray painting in custom colors and finishes including pearlescent, metallic, etc.
- Multicolor transfer “rub-downs”
- Comprehensive Finishing of packaging including:
 - embossing & foil hot stamping
 - fill, crimp and seal
 - shrink wrap individual structures or multi-packs
 - prepare dies (even if one doesn't exist), die cutting and assembly

NORMAL TURNAROUND IS 3-4 WORKING DAYS.

WE HAVE THREE PRODUCTION FACILITIES NATIONALLY.
